

## Bitwise Asset Management Launches Bitwise Uniswap Fund, Bitwise Aave Fund

Crypto fund manager Bitwise Asset Management announced on Tuesday that it has established the Bitwise Uniswap Fund and the Bitwise Aave Fund to invest directly in these two cryptocurrencies.

Bitwise is focusing on Uniswap and Aave because “Uniswap and Aave are the two largest [decentralized finance] protocols in our [decentralized finance] index, and are the largest decentralized exchange and decentralized lending protocol in the world, respectively.”

Uniswap’s peer-to-peer trading system is designed to maximize transparency, while Aave’s peer-to-peer non-custodial lending and borrowing protocol is designed to be completely transparent and programmable.
